

The Labor Market Report

Mother's and Father's Day 2013

March 2013

Bill Haslam, Governor

Department of Labor and Workforce Development

are special Sundays designated for two of the most important people in your life. This year Mother's Day is on Sunday, May 12, 2013, while Father's Day is on Sunday, June 16, 2013. Here is some additional

Mother's Day and Father's Day

The History

information on those days.

In May 1908 Anna Jarvis organized the first observances in Grafton, West Virginia, and Philadelphia. This annual celebration became popular, and Jarvis asked members of Congress to set aside a day to honor mothers. In 1914 Congress designated the second Sunday in May as Mother's Day.

In 1909 Sonora Dodd of Spokane, Washington, heard a Mother's Day sermon. Dodd wanted a special day to honor her father, William Smart. Her father was a widowed Civil War veteran who was left to raise his six children on a farm. Since June was Smart's birth month the Spokane mayor proclaimed June 17, 1910, as the first Father's Day celebration. The first presidential proclamation honoring fathers was issued in 1966 when President Lyndon Johnson designated the third Sunday in June as Father's

Day. Father's Day was legalized in 1972.

Data About Mothers

In 2010, fifty-three percent of all women between 15-to 44 years old were mothers. In this age group, 47 percent had no children, 17 percent had one, 20 percent had two, 10 percent had three, and approximately 5 percent had four or more children, Biological mothers lived with 89.7 percent of those children.

There were 3.954 million registered births in the United States in 2011. Of this number, 329,797 births were to teens 15 to 19 and 7,651 to women aged 45 to 49. The most popular names in 2011 were Jacob and Sophia. Utah had the highest fertility rate; while Rhode Island had the lowest..

In 1970, there were 3.4 million single mothers living with their children. In 2012, that number was 10.3 million. Of that number, 5.9 million were owed child support. In 2010, at the age of 40-to 44 years old, 81 percent of women were mothers, compared to 1976 when 90 percent of women that age were mothers. In the past 12 months, 36 percent of all births (1.4 million) were to women between the ages of 15 and 50 who were never married, divorced, or

Special Days for Mothers and Fathers

widowed at the time of birth; however, 407,873 were living with a partner.

Compared with other moms, stay-at-home mothers were younger (44 percent under 35 compared to 38 percent in the labor force); Hispanic (27 percent compared to 16 percent in the labor force); foreign-born (34 percent, compared to 19 percent in the labor force); and without a high school degree (19 percent compared to 8 percent in the labor force).

Celebrating the Day

Mother's Day is big business. There will be 70,575 employees in the 16,182 floral shops across our nation preparing, selling, and delivering floral arrangements for Mother's Day. There are 14,654 cosmetics, beauty supplies, and perfume stores nationwide. If it's jewelry that you want to purchase, there are 23,739 jewelry stores in the United States that will help you. There are also 10,258 employees in the 103 greeting-card establishments.

Data About Fathers

In 2008 there were 70.1 million fathers in the U.S. There were 24.4 million fathers who were part of a married couple with children younger than 18. Twenty-one percent were raising three or more children. There were 189,000 stay-at-home dads who cared for the children while the mothers were in the labor force.

In 2012 there were 1.96 million single fathers of which 16 percent were single parents. Of that number, nine percent were raising three or more children under 18 years old, and 44 percent had an annual

income greater than \$50,000. These single fathers were divorced (44 percent), never married (31 percent), separated (20 percent), and widowed (5 percent).

Custodial fathers received \$1.9 billion in child support in 2009. Only a small percentage (34 percent) was paid in full. Fathers were due \$3.5 billion that year. Seven of 10 custodial fathers receive noncash support (i.e., gifts or coverage of some expenses). Custodial mothers received \$19.5 billion of child support in 2009. Only a small percentage (42 percent) was paid in full. Mothers were due \$31.7 billion that year.

Celebrating the Day

There are many businesses available when you go shopping for that special father. There are 15,542 hardware stores, as well as, 6,764 home centers. There are also 7,368 men's clothing stores and 21,418 sporting goods stores. All this data is from 2010 and excludes all internet shopping.

These data were obtained and edited from two articles from the Bureau of the Census.

NONFARM EMPLOYMENT & LABOR FORCE NARRATIVE

Total nonfarm employment increased by 38,700 jobs from March 2012 to March 2013. There was a large seasonal increase in professional/ business services (up 13,300 jobs), which included increases of 6,900 jobs in administrative/support/waste management and 5,000 jobs in professional/scientific/technical services. Other large increases were in transportation equipment manufacturing (up 7,400 jobs); health care/social assistance (up 6,900 jobs), which included increases of 5,000 jobs in ambulatory health care services and 1,800 jobs in social assistance; accommodation/ food services (up 6,900 jobs), which included an increase of 5,900 jobs in food services/drinking places; and retail trade (up 6,100 jobs), which included an increase of 1,700 jobs in clothing/ clothing accessories stores. There were smaller increases in transportation/warehousing (up 2,700 jobs), finance/insurance (up 1,800 jobs), and other services (up 1,400 jobs).

These increases were partially offset by declines in government (down 7,300 jobs), which include drops of 4,900 jobs in local government educational services and 1,500 jobs in federal government; wholesale trade (down 1,200 jobs); and fabricated metal products manufacturing (down 1,100 jobs).

During March 2013 nonfarm employment increased by 15,900 jobs. There were monthly seasonal increases in mining/logging/ construction (up 4,600 jobs); accommodation/ food services (up 4,100 jobs), which include an increase of 3,300 jobs in food services/drinking places; local government (up 2,200 jobs); retail trade (up 2,100 jobs), which included an increase of 1,400 jobs in building material/ garden equipment/supplies; arts/ entertainment/recreation (up 1,500 jobs); and transportation/warehousing (up 1,000 jobs). The only large decline was in professional/ business services (down 1,200 jobs).

Tennessee's seasonally adjusted estimated unemployment rate for March 2013 was 7.9 percent, up 0.1 percentage point from the February 2013 rate.

The United States unemployment rate was 7.6 percent in March 2013. In March 2012, the national unemployment rate was 8.2 percent while the state rate was 8.0 percent.

Across Tennessee, the unemployment rate decreased in 58 counties, increased in 24 counties, and remained the same in 13 counties. Twenty-one counties had rates of 7.5 percent or less with 13 of those counties in the Nashville and Knoxville MSAs. There were 44 counties with rates greater than 10 percent. In March 2013, the lowest rate was in Williamson County (5.1 percent) while the highest was in Scott County at 17.2 percent, down from 17.3 percent in February.

The data from all the nonfarm employment estimates tables include all full- and part-time nonfarm wage and salary employees who worked during or received pay for any part of the pay period that includes the 12th of the month. This is a count of jobs by place of work. Agricultural workers, proprietors, self-employed persons, workers in private households, and unpaid family workers are excluded. These numbers may not add due to rounding. Data are based on the 2012 benchmark.

Total nonfarm employment increased by 1,100 jobs from February 2013 to March 2013. There were seasonal increases in professional/business services and leisure/hospitality (both up 500 jobs), and durable goods manufacturing and mining/logging/construction (both up 200 jobs). This was partially offset by decreases of 300 jobs in educational/health services and 200 jobs in retail trade.

During the past 12 months, nonfarm employment increased by 700 jobs. During that time, goods-producing jobs declined by 300, while service-providing jobs increased by 1,000.

*

Total nonfarm employment increased by 1,200 jobs from February 2013 to March 2013. There were seasonal increases in mining/logging/construction (up 1,100 jobs); leisure/hospitality (up 1,000 jobs); manufacturing (up 600 jobs), which includes an increase of 400 jobs in durable goods manufacturing; transportation/warehousing/utilities (up 500 jobs); and other services and local government (both up 200 jobs). These increases were partially offset by declines in administrative/support/waste management (down 1,800 jobs), educational/health services (down 500 jobs), and financial activities (down 200 jobs).

During the past 12 months, nonfarm employment increased by 3,800 jobs. During that time, goods-producing jobs increased by 1,800, while service-providing jobs increased by 2,000.

Total nonfarm employment increased by 800 jobs from February 2013 to March 2013. There was a large increase in mining/logging/ construction (up 1,200 jobs), as well as smaller seasonal increases in leisure/hospitality (up 300 jobs), health care/social assistance, local government, and retail trade (each up 200 jobs). This was partially offset by decreases in wholesale trade (down 500 jobs), administrative/support/ waste management (down 300 jobs), and educational services and federal government (both down 200 jobs).

During the past 12 months, nonfarm employment increased by 21,500 jobs. During that time, goods-producing jobs increased by 4,000, while service-providing jobs increased by 17,500.
